GRADUATION RATE: To calculate the completion rate, the School identifies a cohort of students each year and reviews the performance of that cohort over time, not to exceed one and one half times the normal course length. Diamonds uses a year cohort of students who started on or after 7/1/2014 through 6/31/2015 and graduated within 150% of their normal course length. Only first- time, full-time certificate seeking students are included in the calculation.
